TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python

Frontend: HTML5, CSS3, Angular Material, React.js, Tailwind CSS, Bootstrap, Responsive Web Design

Angular: Angular 20, Standalone Components, Data Binding, Directives, Services, Dependency Injection, Reactive Forms, Routing, Lazy Loading, Route Guards, HttpClient, HTTP Interceptors, RxJS, Signals, NgRx

API & Authentication: REST APIs, JSON, CRUD Operations, JWT Authentication

Backend: Node.js, Express.js

Databases: MySQL, MongoDB

AI: Prompt Engineering, LLM API Integration, n8n Automation

Testing: Jasmine, Karma, Unit Testing

Tools: Git, GitHub

Soft Skills: Problem Solving, Adaptability, Quick Learner, Time Management

PROJECTS

Social Media Trends Analysis

Sep 2025 – Oct 2025

- Developed an interactive social media trends dashboard using **Angular** and **TypeScript** to analyze trending topics, engagement metrics, and platform-wise activity.
- Implemented dynamic data visualization with interactive charts, filters, and trend comparisons to help users identify changing social media patterns.
- Integrated **REST APIs** to fetch and process social media data and optimized the interface with responsive design for cross-device usability.
- Tech:** Angular, TypeScript, HTML, CSS, REST APIs, JavaScript

AI Travel Planner

Mar 2025 – Jul 2025

- Developed an AI-powered travel planner using **Angular** and **TypeScript** to generate personalized itineraries based on budget, dates, destination, and user preferences.
- Implemented itinerary management and travel recommendations using **REST APIs** and **AI APIs** with responsive Angular components.
- Integrated **Maps APIs** for location-based recommendations and route planning.
- Tech:** Angular, TypeScript, Node.js, Express.js, MySQL, REST APIs, AI APIs, Maps APIs

Canteen Management System

Nov 2024 – Dec 2024

- Developed a full-stack Canteen Management System using **React**, **Node.js**, and **Express.js** to manage student accounts, purchases, transaction records, and balances.
- Built a transaction history module and daily, weekly, and monthly revenue reports using **REST APIs** and **MySQL** to monitor canteen sales and overall turnover.
- Tech:** React, Node.js, Express.js, MySQL, REST APIs, HTML, CSS

CERTIFICATES

JavaScript Certification – FreeCodeCamp

May 2025 – Jun 2025

Web Development – Coding Raja Technologies

May 2024 – Jul 2024

EDUCATION

Teegala Krishna Reddy Engineering College

2022 – 2026

B.Tech in Artificial Intelligence & Machine Learning – CGPA: 7.80

Hyderabad, Telangana

SR Junior College

2019 – 2021

Higher Secondary Education – Percentage: 87%

Nizamabad, Telangana

Krishnaveni High School

2018 – 2019

Matriculation – CGPA: 10.0

Nizamabad, Telangana
